TA Nicholas was good at providing a high–level summary of the topics covered in class. I wish we spent less time reviewing homework problems in discussion, as I felt like they were often beyond the scope of the class. I took advantage of his office hours most weeks; he provided valuable insight and answered the questions I had prepared.
Very awesome. Good stuff.
I only went once, I had a timing conflict. But from the short experience iu had emery was very knowledgable and helpful.
Nicholas is extremely smart, he is someone who students can always rely on during office hours and whenever the students need him. It's clear that he is extremely passionate about the topics of economics and AI which I often ask him questions about. He is one of the best TAs I've had and is willing to take time out of his day to help the students, which is quite rare.
